- ◆ Reduced risk of back injury
- ◆ Ease of use
- ◆ Safe working load 150kg
- ◆ 2 year warranty

The Compact Stand-Aid's flexibility provides a natural lifting position, giving comfort and security for patients of all shapes and sizes.

Ideal for use in patient transfers and toileting operations.

A simple sling fitting combined with electrical lifting operations and a foot operated leg splay, reduces the workload on carers.

Designed to be compact enough to be used at home or in a hospital setting.

Suitable for patients that can weight bear but have difficulty in getting from a sitting to a standing position.
