FAULT FINDING & PART REPLACEMENT

---

All trainees are required to give a brief background of knowledge together with their employers confirmation of competence. This information is required to best assess the level of training to be completed.

On completion of the training course a test is given to the level of training received: Intermediate or Advanced. The test papers will be marked and the results forwarded to the Employer.

A Certificate will be issued together with a Training Manual for all those awarded a PASS.
